SUMMARY

A User Experience Designer passionate about crafting impactful User-Centric designs. I combine innovative design solutions with strong technical skills, thriving in collaborative environments.

DESIGN SKILLS

- UX design and Research
- Speculative Design
- Facilitating Creative Sessions
- Usability Testing
- Accessibility in Design
- Wireframing and Prototyping
- User-centric Design
- Critical Thinking
- Design Thinking

EDUCATION

Technical University of Delft

Sept 2022 – Aug 2024

Degree: M.Sc. in Design for Interaction

Industrial Design Engineering, Delft, Netherlands

- Courses: Advanced Machine Learning in Design, Interactive Technology Design, UX design
- Graduation thesis: Algae as a transformative agent in food ecosystem ([link](#))

NMIMS School of Design

Degree: B.Des in Humanizing Technology

July 2017 - July 2021

- Courses: Behavioral Design, Game Design, Business Acumen, Accessible Design
- Graduation thesis: Experience design for Diasporic communities

CAREER HIGHLIGHTS

User Experience Designer (VR), SenseGlove, Delft, Netherlands

June 2023- Sept 2023

- Engineered and iterated prototypes for rapid testing and calibration of a VR system, exploring and refining multiple prototyping methods to align with technological constraints. This streamlined prototyping methodology accelerated the final design process, achieving a 50% reduction in time to completion.
- Integrated and tested various haptic feedback mechanisms, optimizing user experience during system calibration.
- Enhanced calibration process, elevating the 'ease of use' rating from a range of 2-3 to 5-7 on a 7-point scale.

User Experience Designer, Deloitte Digital, Mumbai, India

Aug 2021 – Aug 2022

- Conducted comprehensive journey mapping for the user experience of digital legal platforms for a Canadian multinational information provider, optimizing user pathways.
- Designed and developed wireframes and prototypes, ensuring seamless user interaction and interface design.
- Enhanced platform accessibility by implementing the 'Web Content Accessibility Guidelines,' significantly improving user inclusivity, increasing the user retention by 18%.

The Gamification Company, Pune, India

2019-2020

- Leveraged 'Octalysis framework' to enable learning via gamification, enhancing user engagement and motivation.
- Spearheaded concept creation for RFPs, driving innovative solutions for gamified experiences.

COMMUNITY INVOLVEMENT / LEADERSHIP

Erasmus Student Network, Delft, Netherlands

Sept 2023- Aug 2024

- Served as a dedicated Board Member to build an inclusive space for international students in Delft.

(Re)Generation Erasmus: sustainability Ambassador, Europe

2024

- Achieved a certification for active, inclusive, and conscious involvement in sustainability at the local, national, and European levels.

Cases on Tour, Delft, Netherlands

2022

- Led a cross-functional team of 27 Master's students from TU Delft in collaboration with ASKO Appliances to organize and execute a strategic Case Day. Spearheaded the development of innovative design solutions for three complex company challenges, resulting in actionable insights.

Infuse, Delft, Netherlands

2022

- Served as a dedicated Board Member of the Master community Design for Interaction at IDE, TU Delft. Our mission was to foster professional and personal growth of students.
